

DIRECTED BY DAN WALSH

School of Rock is a week long program designed to bring music students together and put them in a band environment. If students already have a band and the whole band attends we will keep them together to work with them during the week.

At the beginning of the week, students will be placed in their own band (based on age & experience). They will then work on Rock & Roll cover songs and also learn the basics of song writing. By the end of the week, each student and their band will have written and recorded their own song. There will also be guest artists from the music industry who will share their talents and experiences.
